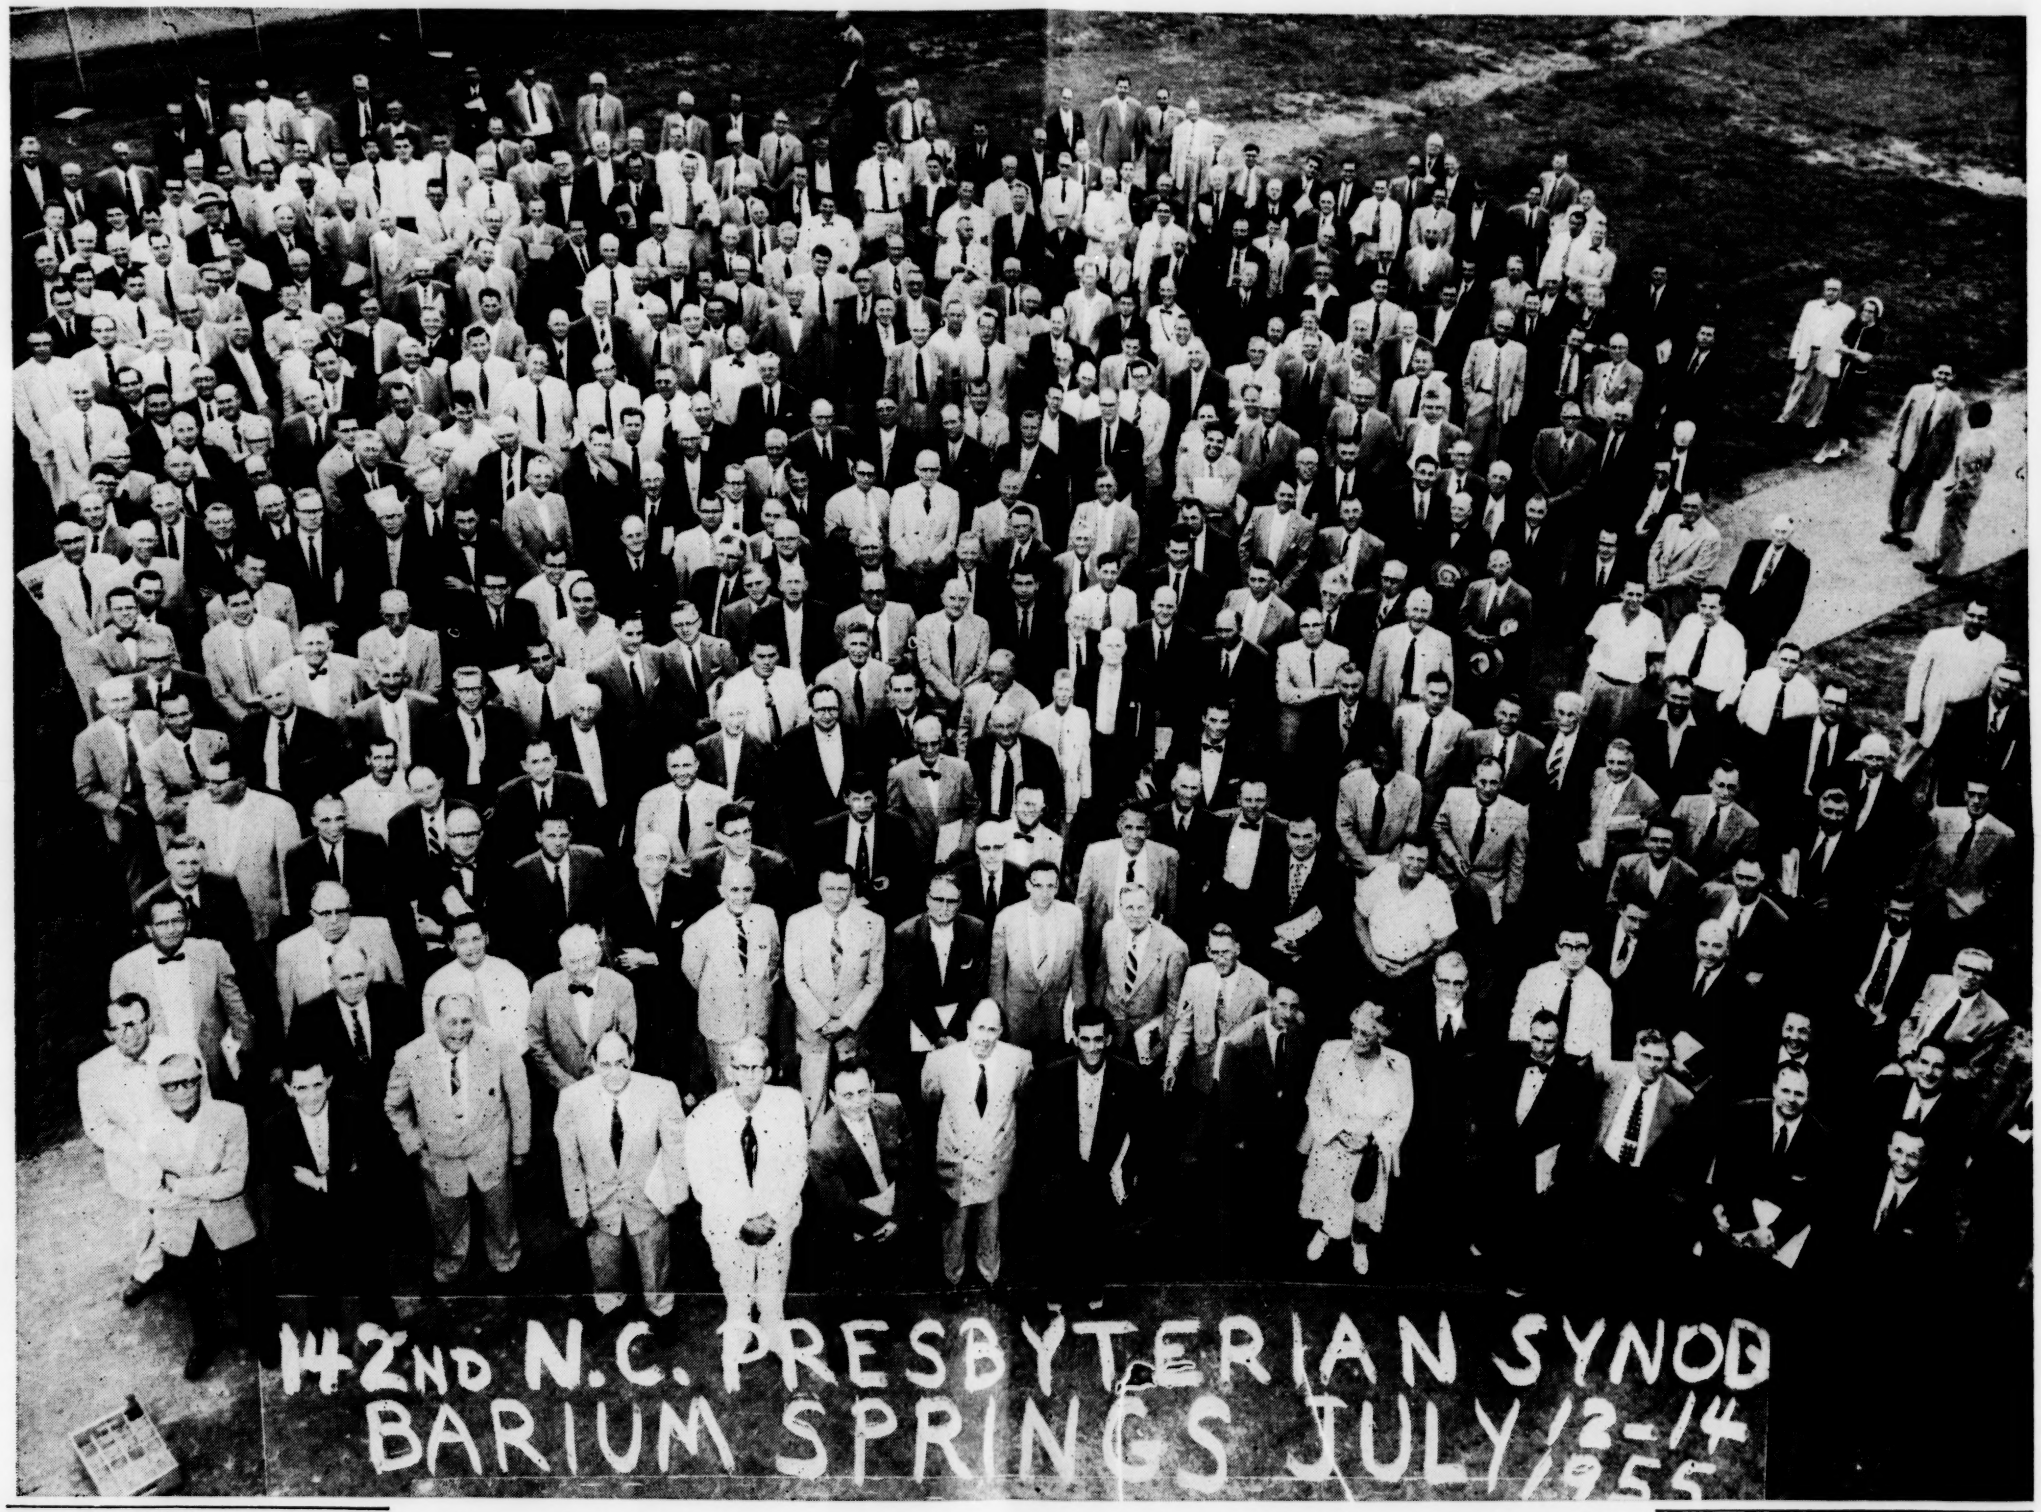
HOMECOMING WILL BE ON OCTOBER 21ST

Barium Messenger

VOL. 33 BARIUM SPRINGS, N. C., JULY & AUGUST 1955 No. 8

RECORD ATTENDANCE FOR SYNOD MEETING



Football Practice Begins August 15th

The charges of Coach P. G. Calhoun will be hitting the turf about the middle of August, preparatory to harder training later. The Barium squad is always small and will have about the usual number this year. The graduating class of '55 did not hurt the chances of the squad this fall as much as had been done heretofore. Only three regulars were graduated. Mr. R. G. Calhoun, principal of the school and coach of the team, is of the opinion that the squad this year will be improved over last year and a better record may be anticipated.

The stated Clerk reports that 573 official representatives were enrolled for the meeting of the Synod of North Carolina held on the Barium campus July 12-14th. This is by far the largest registration for any meeting of the Synod. The official representatives together with hundreds of guests and interested persons who attended made the attendance tremendous. One child at the Baby Cottage came running to his housemother and called, "Mrs. Potts, Mrs. Potts come here quick, there are men coming from everywhere."

The boys and girls of the Home gave up their beds and turned to the haylofts and pallets and did double duty during the three days that the meeting of Synod was in session. Two breakfasts were served in the dining room each morning. The mid-day meal and supper for the children were served in the cottages because there was not room enough in the dining room. In addition to the regular meals for the Barium family there were 2,223 meals served in the dining room during the meeting of Synod.

This magnificent demonstration on the part of the boys and girls of the Home brought about two days of extra vacation for them. Of course, the Home was unable to provide beds for all the people who wanted to come to the meeting of Synod. Finding every bed that would stand up and erecting it for the use of Synod, the Home found itself 150 beds short for those who wished to spend the night. The only way to solve this problem was to seek the aid of Davidson College wherein the new Belk Dormitory was made available.

ALUMNI NEWS

Lee Roy Norman was married to Julia Ann Christopher of Statesville on June 26th in Western Avenue Baptist Church in Statesville. They are living in Charlotte.

Mr. and Mrs. Robert Pittman and their two sons of Charlotte were visitors on the campus.

Billy Black is in the service and is stationed at Keesler A. F. B. in Mississippi.

Major Julius J. Kinard and his family were visitors on the campus. Julius is stationed at Laredo A. F. Base in Texas. He was on his way to Montgomery, Ala.

Entered as second-class matter, November 15, 1923, at the post office at Barium Springs, N. C., under the act of August 14, 1912. Acceptance for mailing at special rate of postage, provided for in Section 1108 Act of October 1917. Authorized November 15, 1923.

General Report of The Superintendent

This report is more than a report for this year — in a measure it covers the five years which have been completed for the first report was made in 1950 by our present superintendent. Many of you are aware of all the happenings of these years, though some of you are new members of the Board and have been spared the heartaches that have been a part of this period. There is no need to review the difficulties that we have had in effecting some of the necessary changes. Suffice it to say that desirable changes have been made and the organizational pattern is now sufficient to carry on the work of the Home. A spirit of cooperation does prevail in the staff of the institution and we should be able to accomplish our purposes without the anxiety of mind and heart that so characterized this time of transition.

Physical Properties

The buildings are old; the depreciation has not been kept up. We are making moves to overcome this and the new buildings that have been erected have been well built and will meet the needs for which they have been designed, but it will take a long time to get the old buildings into the proper state of repair where they can be repaired. This program is underway. Last summer, a great deal of painting and repairing was done — much too late, but nevertheless done, and we hope this summer to do more.

Let me say a word about the furniture and furnishings. I have visited other institutions of our denomination and across the Southland, and it seems to me that Barium Springs has the least in the children's rooms and in the living rooms of any other Homes. We are actually suffering from the lack of furniture and furnishings within the buildings. I am not speaking of fancy things nor fine things, just things. For a boys' living room where fourteen boys are housed to have only one table and one chair in a living room is just simply not living - room furniture sufficient, and that so often is typically true of the various buildings; therefore, we must make application of whatever funds we have to this particular need.

Major installations have been indispensable. A new heating plant had to be built; a new heating system and hot water system had to be installed; a new sewage disposal system had to be erected; a Gymnasium was a must on the list. Now we are in the process of erecting some cottages for which plans have been in the making for more than a decade. A little over a mile of hard surface road has been laid on the campus to keep the children out of the mud, broken sidewalks have been retopped, and some new sidewalks laid. For these improvements we are grateful and for the remaining needs we hope there is a solution.

Admission

The members of the Board are aware of the fact that the applications for admission come to the Home through the Presbyterian minister in the local community. Forty-four children were admitted to the Home last year. The case worker and the superintendent, working closely with this minister and all the other people in the community who are able to afford any information, give careful study to the admission of a child. If a child's needs cannot be met elsewhere and Barium can meets these needs and if this is the responsibility of Barium Springs, then the child is received. Once in the Home he may find his way out of Barium Springs in several ways. Very few of our children are eligible for adoption, but when one is eligible for adoption a careful study is done and adoption plans are made. We are not licensed to do adoptions, so we work through the Children's Home Society in Greensboro, N. C. A child may be returned to his own home. If a mother or father remarries and the home is re-established, or if some member of the family is able to take the child, then it is always deemed wise and good to return this child to his own parents or to some member of his family. If neither of these two methods is used the child may, if he wishes, continue in the Home until he graduates from high school. There are two other ways in which children do leave the home neither of which is desirable. Sometimes one of them is necessary from the standpoint of administration, and the other I would judge is deemed necessary from the standpoint of the child. In the first instance it sometimes becomes necessary to replace a child. In this case he is returned to a responsible person from whom he has been taken. The other instance spoken of is when the child gets to the place where he no longer wishes to be a part of Barium Springs and decides to take matters in his own hands and leaves without notifying anyone. According to the case worker's report we did not have a single case of this kind last year and this pleases us very much.

Health

The boys and girls at Barium Springs are healthy and if they do have illness they are exceedingly fortunate in their treatment. The Infirmary on the campus makes provision for the children who need to be cared for. Two doctors at Troutman have been diligent in visiting the campus when necessary and in attending the sick calls at their office. The outstanding example of unselfish service to this institution still stands in the person of Dr. James W. Davis who through these years has made every facility of his great hospital immediately available to the needs of these boys and girls. Day or night, any child in this Home can receive the very finest attention at this hospital at no cost to this institution or to the child.

The Presbyterian dentists have continued their interest. A committee composed of Dr. Ralph Coffey of Morganton, Dr. Frank Kirk of Salisbury, and Dr. Sam Steelman of Lincolnton, have been supervising the work of a very competent dentist, Dr. Smith Kirk, who has been doing two days work each week on the campus. His work is entirely satisfactory from the standpoint of the administration of the Home and it is excellent from the standpoint of the reveiwing committee. The boys and girls of Barium Springs now find that they are able to get their emergency dental needs cared for, regular work done, and the proper care given in guiding and training them where necessary work has to be done in a special fashion for particular children.

Grade A

For the first time since I have been at Barium Springs we have a Grade A kitchen and dining room, school buildings and buildings on the campus. The requirements of the Health Department have been met and we proudly display our certificate indicating the quality that prevails. The credit for the accomplishments in the kitchen should go to Mrs. Lester Marshall who has been our dietician. Working long hours and manifesting great skill, she has brought the kitchen to the point where the Health Department is satisfied and the students recognize the expertness with which she prepares and serves the food daily. This has been one of the fine accomplishments within the last year and one that delights everybody on the campus.

Farm, Dairy, Gardens, and Orchards

We have recovered from the quarantine imposed upon our dairy by the discovery of a case of Bangs disease in the herd. We have been required to serve processed milk and we now operate on the policy that we must produce every bit of Holstein milk that we can, sell it at the highest price, and buy back the processed milk for the use of our children. The prices for erecting a pasteurization unit according to the State law make it an unfeasible proposition for the Home. Mr. Arthur Hanks is improving his herd. A number of registered Holsteins have been given to Barium Springs. In addition to this, the members of the Board are aware of the fact that we have received approximately fifteen Herefords and ten Black Angus cattle for the beef herd. We are delighted with this and are anticipating additional receipts from various sources in the Synod in order to make this beef herd a reality at Barium Springs.

Our fruit for last year was good, though the dry weather kept it small. We can report to you now that the dry weather this summer will not affect the fruit — the cold has already killed the peaches and taken out 90 percent of the apples.

Our big farm, under the direction of Mr. Stinson, continues to operate well and bids fair to have another good year of operation.

The new plans for truck farming under the direction of Mr. Luther Tomasson are getting underway and our two-year experiment is in its first year. We hope to have the tables covered with fresh vegetables, the pantry stored, and sufficient quantities to realize some cash income from sales made in the community.

Education

Our school has operated under the direction of Mr. R. G. Calhoun, the principal, and here is a part of his report:

Our enrollment has increased in the Elementary School this year while the High School has shown a slight decrease. High School enrollment should increase some in the next few years. It is gratifying to note that our attendance was a very fine 99.2 percent for the first seven months of this year. That figure attests to the fine health of our students, and shows good follow-up work on ills detected in the annual physical examinations.

It is good to report that about 35 percent of our students have been on the Honor Roll during the year, and the list of failures has shown a decline from last year.

A fine spirit of cooperation and sportsmanship has been displayed in our sports program although we won no championship trophies. Our football teams played well in spite of injuries and man shortage, while both boys and girls played over the .500 mark in basketball."

Finances

The auditor's report is in the hands of Finance Committee and the treasurer's report will be presented today. We are grateful that this institution is not in debt. We are happy to report that the Synod of North Carolina continues to support this place through its Thanksgiving Offering and its Benevolent Contribution. We also note that the operation of this place continues to interest people to the extent that they remember it in their wills; some in small amounts and others in larger amounts.

I would urge the Board of Regents to study the financial program of the Home and to present to the Synod and all the people of North Carolina a true picture of the income of the Home and its needs. False rumors and misinformation do damage to our program. The Synod is exploring new Stewardship programs. It will be necessary for this institution to cooperate with the Synod in whatever plan it adopts; however, the Synod will expect the Regents to present the needs of this Home to the Council and to the Churches.
